Raymond Way
Crescent Manufacturing Company
Post Office Box 3026
Seattle, Washington 98114

Dear Mr. Way:

In regard to the inquiry you made to Mary Savelle of my staff concerning the possible health hazards from PCBs from the capacitors located in your manufacturing plant, attached is a copy of the most recent federal regulations governing the handling of equipment containing PCBs.

If you have further questions on this matter, I suggest you call City Light Community Relations at 625-3112, or Safety at 625-3270.

Sincerely,

Peter B. Henault, Director
Office of Environmental Affairs
